

# REGISTRATION AND ENROLLMENT

---

Registration dates are posted on the academic calendar (<https://www.biola.edu/academics/calendar/>). Students should register (add courses to their schedule) and enroll (complete **all enrollment tasks** on MyAccount) online (<https://myaccount.biola.edu/tasks/>) during scheduled registration and enrollment periods. Students are responsible for verifying that their enrollment is correct and complete by the posted deadline. Course registration and payment for courses do not equal full enrollment.

Enrollment is finalized when students have completed **all enrollment tasks and** paid the required tuition down payment. Enrollment status is checked on the MyAccount enrollment task list.

Enrollment is mandatory for Rosemead School of Psychology students in all phases of the program, including students in an internship and those who have completed all requirements except the dissertation.
